

Bona Commercial System™

Resilient Floor Renovation System

Bona Commercial System™ Resilient Floor Base Color is a uniquely designed, two component product for the renovation of resilient floors. It ensures a quick application process with accelerated drying properties and heavy pigmentation for singlecoat coverage and available in seven popular stock colors. Achieve unique and beautiful design elements when renovating your resilient flooring with **Bona Color Chips**, which can be added in various concentrations depending on the desired look. Chips are offered in 10 base colors and 5 premium colors to allow for endless color combinations.

Features & Benefits

- Heavily pigmented for concealing imperfections in the floor.
- Ultra-quick drying for minimal downtime.
- Adds beauty and depth to resilient floors.
- Easy to apply.
- Each pack of base color comes with one 16.91 oz. bottle of hardener.

Applications

- For use on VCT, LVT, linoleum and rubber floors.
- Prep the floor by using the Bona Commercial System™ Microfiber Dry Dusting Pad to remove loose debris.
- Strip the floor with suitable Diversey branded stripper and abrade with Bona Diamond abrasive pads once dry.
- Clean the floor and apply the base color with a Bona® Microfiber Roller.
- Coat the floor with Bona Commercial System Resilient Floor Finish Hardener once dry. The hardener is mixed in with the finish.
- Maintain cleanliness of the floor as needed with the Bona Commercial System™ Multi-Surface Floor Care Kit.
